Just some of the positive exhibitor and visitor feedback:

Dr. Ahmadvand, Deputy Minister of Culture and Islamic Guidance

We hope that with the holding of this economic event, more and better cooperation in the field of printing and packaging and other industries with the region's countries will be provided. In the meantime, we hope that under the shadow of this exhibition, good business and commercial cooperations and contracts will be signed, and we will witness the success of printing industry activists in the country.

Dr. Abrofaraakh, Director General of Office of Cellulosic and Printing Industries, Ministry of Industry, Mining and Trade:

The printing and packaging industry has been able to enter foreign markets in recent years with the benefit of new specializations in this field. She added: We take the growth of this industry as a good omen, and the above exhibition, which was held in a very specialized manner, shows that this event has impacted the industry.

Dr. Roghani, Head of Iran Paper and Cardboard Syndicate:

Events like trade shows are among the most important Competitive and advertising tools for businesses, especially for manufacturers. Due to their unique position, printing, packaging, and paper industries play a special role in industries. Although several exhibitions are held in this field in the country, IPAP & pacprocess Tehran added to the richness of this event with the presence of industry activists and inviting foreign delegations, especially from neighboring countries, which is the target market of our dear country.

I hope this event will be linked with other domestic and foreign exhibitions in the direction of market development and technology exchange. I appreciate the organizer of this event.

Dr. Shahla Amouri, Head of the Ahvaz Chamber of Industries, Mines, Trade, and Agriculture and head of the Iran-Iraq Joint Chamber:

IPAP & pacprocess Tehran was an outstanding event. The presence of foreign trade delegations, mainly from Iraq, as well as the infrastructure of the exhibition center, was one of the significant advantages of this event. Due to its proximity to Imam Khomeini International Airport, this exhibition has facilitated the access of foreign delegations. I even proposed to the Iranian Chamber of Commerce regarding the strong and maximum presence of the Iranian Chambers of Commerce and joint chambers as a pavilion in

this exhibition.

Mr. Makki Ajeeb Al-Dairi, Deputy Minister and Financial and Administrative Deputy of the Ministry of Industry and Mines of Iraq

This exhibition was a complete show in the field of printing, packaging, and food machinery. The participants of this exhibition were the best in the industry in Iran because most of them had the ability to export. This event can create good business relations between Iran and Iraq, and Iran has a high potential to provide technical and engineering services.

Mr. Vaziri, Executive member of Herat Province Printers Union

In the field of printing machines, our needs were met in the IPAP. It is hoped that Afghanistan will be able to completely solve its printing needs from Iran.

Mr. Yazdan Doost, Sales manager of Saaf Film, Naghshineh Chap Tabriz, and Sepehr Polymer of Sepahan

IPAP & pacprocess Tehran is the first event in Iran in which we participated. It exceeded our expectations, and fortunately, the quality of the visitors we met at this exhibition was superb. The standards and infrastructure of international exhibitions were observed in this event, and it was in a higher position than its rival exhibition in Tehran.

Mr. Bakhtiari, CEO of Asan Seal Agrin Company

I rate this exhibition as excellent. Because in the 17 years that we participated in the printing and packaging show in the old exhibition center in Tehran, compared to it, this event was wholly specialized and professional, both at the level of visitors and at the level of packaging and printing companies which were as an exhibitor. In general, this exhibition was very beneficial for us.

Mr. Mohammadi, Managing Director of Hoodis Pars Printing and Packaging Complex and Vice President of Iran Print Exporters Union

Although it was a small exhibition, it was very specialized. The show has a very professional environment. Both running the exhibition and inviting highly trade visitors were perfect. Also, in the field of foreign delegations, as much as possible, they were invited at the minister and deputy minister level, and this was very valuable. In this exhibition, we negotiated contracts with the countries of Iraq and Afghanistan, which resulted from the efforts of the organizers who provided these conditions.

Mr. Salehi, CEO of Hi-Pack Co.

After three years had passed since the beginning of the Coronavirus pandemic, we again participated in this exhibition. We were delighted to attend this exhibition, which was gainful for us. One of the benefits of this exhibition is the presence of expert and technical visitors, and we can quickly enter into the primary negotiation process. In other words, there was no crowd of non-expert visitors, who are many in other exhibitions.
